

FORTUNE BAY TO COMPLETE NON-BROKERED PRIVATE PLACEMENT

HALIFAX, NS November 30, 2020 – Fortune Bay Corp. (TSXV:FOR, Frankfurt: 5QN) (“Fortune Bay” or the “Company”) is pleased to announce that it intends to complete a non-brokered private placement for aggregate gross proceeds of up to \$2,000,000 (the “Offering”). The Company intends to issue units and flow through shares. Each unit will be issued at a price of \$1.20 per unit, with each unit comprised of one common share and one-half common share purchase warrant. Each whole warrant will be exercisable into one common share of the Company at an exercise price of \$1.60 per share for a period of two years. The flow through shares will be issued at a price of \$1.40 per share.

The Company intends to use the proceeds of the Offering to fund exploration and project development at Fortune Bay’s 100% owned Goldfields Project and for general operating costs.

The Offering will be led by Numus Capital Corp. (“Numus”). In connection with the Offering, Fortune Bay will pay a finder’s fee comprised of cash equal to seven percent (7.0%) of the gross proceeds received by Fortune Bay from the sale of the units and flow-through shares to Numus investors, plus share purchase warrants entitling Numus to purchase the number of shares in the Company that is equal to seven percent (7.0%) of the number of units and flow-through shares sold by Numus as part of the Offering, with each warrant exercisable into a common share of Fortune Bay at \$1.60 per share for a period of two years.

Closing of the Offering is subject to the approval of the TSX Venture Exchange. All securities issued pursuant to the Offering will be subject to a statutory four-month hold period in accordance with Canadian securities legislation.

About Goldfields

The 100% owned Goldfields Project is the Company's most advanced asset located in northern Saskatchewan, approximately 13 kilometres from Uranium City, for which a historical Pre-Feasibility Study (“2011 PFS”) was completed in October 2011 in accordance with NI 43-101. The 2011 PFS envisaged open-pit mining of the Box and Athona gold deposits, located two kilometres apart, over 13 years with estimated gold recoveries of 91% and 89% respectively, processed at a shared mill facility with a capacity of 5,000 tonnes per day. Economic highlights from the 2011 PFS include an NPV (at a 5% discount rate) of CAD\$144.3 million (pre-tax) and a 19.6% IRR (pre-tax) using a base case of CAD\$1,250/oz of gold (exchange rate CAD\$ = 0.96 USD\$). Total capital costs were estimated at CAD\$159.2 million including a 13.7% contingency. Mineral reserve and mineral resource estimates for the 2011 PFS (Box and Athona deposits) included; 1.02 million ounces of gold (22.3 million tonnes at 1.4 g/t Au) in proven and probable reserves, 1.03 million ounces of gold (20.9 million tonnes at 1.5 g/t Au) in measured and indicated resources (included in the proven and probable reserves), and 0.23 million ounces of gold (4.6 million tonnes at 1.5 g/t Au) in inferred resources. The Project is endowed with established infrastructure including existing roads, powerline, and nearby facilities and an airport at Uranium City. The Project has a history of gold production (64,000 oz Au produced between 1939 to 1942), numerous exploration drilling campaigns (~87,000 metres of drilling in ~750 drill holes) and various mining studies (including a 2007 Feasibility Study for the Box deposit for GLR Resources Inc. that was prepared in accordance with NI 43-101). The Box open-pit mine and mill development is permitted having received Ministerial approval under the

Environmental Assessment Act in May 2008. The 10,300 hectare Goldfields property presents numerous exploration opportunities, including the potential to expand the Box and Athona deposits and discover additional resources at several other gold prospects and occurrences.

About Fortune Bay

Fortune Bay Corp. (TSXV:FOR) is a gold-focused exploration and development company with 100% ownership in two advanced exploration gold projects in Canada, Saskatchewan (Goldfields Project) and Mexico, Chiapas (Ixhuatán Project), both with exploration and development potential. The Company has a goal of building a mid-tier gold exploration and development Company through the advancement of its existing projects and the strategic acquisition of new projects to create a pipeline of growth opportunities. The Company's corporate strategy is driven by a Board and Management team with a proven track record of discovery, project development and value creation. Cautionary Statement Regarding Forward-Looking Information

Information set forth in this news release contains forward-looking statements that are based on assumptions as of the date of this news release. These statements reflect management's current estimates, beliefs, intentions and expectations. They are not guarantees of future performance. Fortune Bay Corp. ("Fortune Bay" or the "Company") cautions that all forward-looking statements are inherently uncertain, and that actual performance may be affected by a number of material factors, many of which are beyond Fortune Bay's control. Such factors include, among other things: risks and uncertainties relating to metal prices, changes in planned work resulting from weather, logistical, technical or other factors, the possibility that results of work will not fulfill expectations and realize the perceived potential of Fortune Bay's mineral properties, uncertainties involved in the interpretation of drilling results and other tests, the possibility that required permits may not be obtained in a timely manner or at all, risk of accidents, equipment breakdowns or other unanticipated difficulties or interruptions, the possibility of cost overruns or unanticipated expenses in work programs, the risk of environmental contamination or damage resulting from the exploration operations, the need to comply with environmental and governmental regulations and the lack of availability of necessary capital, which may not be available to Fortune Bay, acceptable to it or at all. Fortune Bay is subject to the specific risks inherent in the mining business as well as general economic and business conditions. Accordingly, actual and future events, conditions and results may differ materially from the estimates, beliefs, intentions and expectations expressed or implied in the forward-looking information. Except as required under applicable securities legislation, Fortune Bay undertakes no obligation to publicly update or revise forward-looking information. Fortune Bay does not intend, and does not assume any obligation, to update these forward-looking statements, except as required under applicable securities legislation.
